LoA ISFM-071 Yahoo Mail/Inbox

isfm faperika <isfm.faperika@ict.unri.ac.id> To: indra70s@yahoo.com Sun, 18 Jul 2021 at 15:14

Dear Mr/Mrs. Indra Suharman,

We have decided that your abstract entitled "Quality Improvement of Water Hyacinth Leaf Meal Fermented with *Aspergillus niger* as Fish Feed Ingredient" submitted to the International Seminar of Fisheries and Marine Science (ISFM) 2021 is accepted.

The attached files are your Acceptance Letter, Publication Agreement, and Template Full Paper. Please send us the filled and signed your Publication Agreement and your Full Paper before 1<sup>st</sup> August, 2021 by ISFM website <https://isfm.faperika.unri.ac.id/>.

Feedback from the reviewer :  
- Abstract still consists of 101 words. It should be 200-300 words.

Thank you for your participation in the ISFM 2021.  
Kind Regards,  
ISFM 2021 Committee

Full Paper Reminder Yahoo Mail/Inbox

isfm faperika <isfm.faperika@ict.unri.ac.id> Bcc: indra70s@yahoo.com Thu, 19 Aug 2021 at 12:22

Dear Author of ISFM X,

We hope you are in good health.

We kindly inform you that the full paper submission deadline is until August 20, 2021.

Thank you to the authors who have submitted the full paper.  
Authors who haven't submitted it yet, please submit it no later than August 20, 2021 by ISFM website <https://isfm.faperika.unri.ac.id/>

Please full paper following the template guide as attached.

For abstracts that have revisions, you can send the revised abstracts via email [isfm.faperika@ict.unri.ac.id](mailto:isfm.faperika@ict.unri.ac.id).

Thank you for your attention and understanding.  
Kind regards,  
ISFM 2021 Committee

Presentation Slides and Presentation Video Yahoo Mail/Inbox

isfm faperika <isfm.faperika@ict.unri.ac.id> Bcc: indra70s@yahoo.com Tue, 24 Aug 2021 at 14:12

Dear Author of ISFM X,

We are pleased to invite you to prepare presentation slides and presentation video so we could minimize the disturbance from poor internet connection during your presentation.

Please note that your slides should be no longer than 10 slides and no longer than 7 minutes for the video. Please upload the video to Youtube. Presentation slides and video are received no later than September 5, 2021. Kindly use this link <http://my.unri.ac.id/PPTVideoISFMX> to submit slides and link of the video.

It is recommended to use power point template which can be downloaded from <http://my.unri.ac.id/TemplatesPpt10>

For authors who have not completed the registration fee and publication fee, please make payment before September 1, 2021. And authors who haven't submitted full paper yet, please submit it no later than August 27, 2021 by using this link <https://forms.gle/u3UjShRh5Un9mLylA>

Best regards,  
ISFM 2021 Committee

Dear Author of ISFM X,  
Here we attach a list of ISFM X participants.

We need to inform you that:

1. Confirmation of unmatched data is received no later than September 5, 2021. Please attached proof/evidence when you confirm unmatched data to committee
2. Full paper submission has been closed
3. Abstract revisions must be received no later than 5 September 2021 (only for abstracts marked by "Need to be Revised")
4. Participants who have collected the full paper and have not made the payment, can make the payment no later than September 5, 2021. If don't make a payment until September 5, 2021, the full paper will not be published

We also remind you to prepare presentation slides and presentation video so we could minimize the disturbance from poor internet connection during your presentation.

Please note that your slides should be no longer than 10 slides and no longer than 7 minutes for the video. Please upload the video to Youtube. Presentation slides and video are received no later than September 5, 2021. Kindly use this link <https://forms.gle/dyQmGAN9SS5iFtgZA> to submit slides and link of the video.

It is recommended to use power point template which can be downloaded from [https://drive.google.com/drive/folders/1pCBUIf9tbXMo6BWxk\\_sMMnaZvisTVK?usp=sharing](https://drive.google.com/drive/folders/1pCBUIf9tbXMo6BWxk_sMMnaZvisTVK?usp=sharing)

Thank you for your attention and cooperation.  
Best regards,

isfm faperika <isfm.faperika@ict.unri.ac.id> To: indra70s@yahoo.com Thu, 7 Oct 2021 at 14:38

Thank you for your participation in The 10<sup>th</sup> International and National Seminar on Fisheries and Marine Science (ISFM X), which was held **online** on **September 15-16, 2020** by **ZOOM**.

Please kindly find the reviewer's comments in the attachment and you should revise the manuscript based on the comments.

Please submit the revised manuscript by **October 12, 2021** via **this Email**. We will assume that you resign as a participant in IOP Publication if you do not submit the revised version on the date mentioned. In order to publish the paper, the manuscript must be written based on the **guideline template**. We are looking forward to your response. Thank you

Kind Regards,

ISFM X Committee

**Quality improvement of water hyacinth (*Eichhornia crassipes*) leaf meal fermented with *Aspergillus niger* as fish feed ingredient**

**Abstract.** An experiment was conducted to investigate the nutrient quality of water hyacinth leaf meal (WVLM) fermented with different doses of *Aspergillus niger* as fish feed ingredients. This study utilized a completely randomized design (CRD) with five treatments and three replications. The doses of *A. niger* supplemented in WVLM were 0, 6, 10, and 12%. Results of this study showed that nutrient quality of WVLM with *A. niger* supplementation significantly affected the reduction of crude fiber and increase of crude protein (P<0.05). Addition of 12% *A. niger* is the best treatment for improving protein and fiber quality of water hyacinth leaf meal.

**1. Introduction**

Water hyacinth (*Eichhornia crassipes*) is native to South America and has spread to more than 50 countries including Indonesia. Water hyacinth is one of the many aquatic plants that grow in rivers, rice fields, lakes and reservoirs. These plants exhibit fast growth rate and have the ability to compete with other aquatic plants [1]. Water hyacinth can block irrigation flow [2]. Therefore, the presence of water hyacinth in the waters is more often considered as an aquatic weed which is very detrimental because it has a negative impact on aquatic ecosystems [3].

Recently, efforts to use water hyacinth leaves in fish feed have been widely given to Nile tilapia, African catfish, green catfish, river carp and Thai catfish [4,5,6,7,8]. Water hyacinth leaves can be used as fish feeds because these are good sources of nutrients. The leaves contain 6.31% to 11.20% crude protein, 12.60% to 18.12% ash and 48.18% to 57.0% nitrogen free extract, while the fiber composition is 33.0% to 48.30% [9,10]. Even though the water hyacinth leaves have high nutritive value, the main obstacle in its use as fish feed ingredients is due to the relatively high content of crude fiber which makes it difficult for the fish to digest and can reduce feed quality.

One of the efforts that can be done to overcome the high crude fiber content in water hyacinth leaves is through fermentation technology. Fermentation process using *Aspergillus niger* could be applied on water hyacinth leaves to increase nutrient utilization for fish. A
